## Amendments to the Specification

The paragraph beginning at page 6, line 6 has been amended as follows:

When compared to the channels and ducts in earlier or prior contact lenses, the microchannels in the contact lenses in accordance with the present invention preferably are relatively small in size. For example, each microchannel in accordance with the present invention may have a width of less than about 10 degrees of or less than about 5 degrees, and more preferably in a range of about 0.5 degrees to about 2 degrees (for example, in a 360 degree substantially circular array).
